solidarity WITH GIANNIS MICHAILIDIS

ON HUNGER STRIKE
SINCE 12.05.2023

„Because I am not asking for anyone's interest as a victim of state repression, but as an active social and political subject who considers the condition of my captivity as part of the attack from state and capital on those who consciously stand against them. Rather, I call for a relationship of revolutionary solidarity on the basis of common projections and a common struggle with multiple edges that coordinates the rage felt by different people experiencing different conditions but with the same causes."
