

SOLIDARITY WITH MUNDO NUEVO

The Mundo Nuevo an anarchist squat in Thessaloniki, has been in existence for three years as a vivid and self-organized space for freedom and resistance.

The state and the fascists have threatened it in the past. This time the impeller of the eviction is OKANA (a NGO dealing with drug addicts) with the pretext of turning the building into a second chance school.

**KEEP YOUR
HANDS OFF THE
SQUATS AND
THE CENTERS OF
FREEDOM AND
STRUGGLE**

Behind the board of directors of the NGO are hidden the governing party Syriza, political opposition of the right party Nea Dimokratia and the cops. With the excuse of humanism, they want to suppress another centre of socio-political struggle.

This tactic is well known, also here in Berlin. And what really is happening is that the state and the capital suppress spaces of resistance and freedom to reinstate normativity and the business as usual.

We are in solidarity with other free spaces threatened with eviction such as Liebig34, G17, Potse and others.
